Portfolio: asheed-eliyangod.vercel.app

itch.io: asheedeliyangod.itch.io

OBJECTIVE

Creative and detail-oriented Game Designer with a CS degree and hands-on experience in Unity, Unreal Engine, and Godot. Skilled in level design, game mechanics, narrative, UI/UX, and playtesting. Seeking a game development internship to contribute to engaging player experiences and grow within a professional studio environment.

SKILLS

Game Engines: Unity, Unreal Engine (Blueprints), Godot

Design Skills: Level Design, Game Mechanics & Systems, Narrative / Storytelling, UI/UX Design, Prototyping & Playtesting

Platforms: PC / Desktop, Web Browser (HTML5), Game Jam builds

Programming: C#, GDScript, Blueprint Visual Scripting

Tools: Git / GitHub, Figma (UI wireframing), Tiled, Blender (basics)

PROJECTS

GLITCH · Unreal · PC · <https://github.com/AsheedEliyangod/Glitch>

- ▶ Designed and iterated on core game mechanics including player movement, combat systems, and progression system.
- ▶ Built and tested multiple level layouts, balancing challenge and pacing through repeated playtesting sessions.
- ▶ Implemented UI/UX flows including menus, HUD, and feedback systems using Unreal Engine UMG.

Isometric Temple Prototype · Three.js Web Browser · <https://isometric-temple-game-design.vercel.app/>

- ▶ Developed a browser-playable prototype exported from Three.js, focusing on accessible UI and intuitive controls.
- ▶ Wrote the game's narrative and dialogue system, designing branching outcomes based on player decisions.
- ▶ Collected feedback from 10+ playtesters and iterated on game feel, difficulty curve, and onboarding.

GLOBAL GAME JAM — Kochi · Unity · PC / Web

- ▶ Developed a complete game within a 48-hour jam, delivering a polished prototype from concept to submission.
- ▶ Designed levels and mechanics around the jam theme, prioritising a tight, satisfying core gameplay loop.

EDUCATION

Bachelor of Computer Science · Calicut University

Graduated: April 2026 · Relevant coursework: Game Design, Computer Science, Interactive Media

ADDITIONAL

- ▶ Active participant in online game jams (Global Game Jam) — building and shipping under time constraints.
- ▶ Maintain an itch.io portfolio showcasing prototypes and design process documentation.
- ▶ Regularly playtest and provide design feedback on indie titles; engaged with communities such as r/gamedev and Discord dev servers.
